

SCHOOL NEWS

Friday: 3rd April 2020

Hello Everyone,

This week we have had two parent/carer consultations for the primary school. I am delighted to have had the opportunity to meet so many of the parents and carers from the primary phase and to be able to speak with you about your child. The uptake for the parents evening was 100%, this is a fantastic turn out and fully supportive of a collaborative parent/school partnership. The feedback has been excellent and our teachers were delighted to have been able to share the outstanding progress which so many of our pupils have made. A huge well done to all of our wonderful pupils and staff and also thank you to you for your on-going support.

As you know the Year 11 students will not be taking external examinations for their IGCSEs. Cambridge has released the following information as a guideline of how the assessments will take place. Results will be based upon teacher assessment, the type of evidence could include, mock exams, coursework and assignments. All work will be authenticated (that is as a school we will quality assure the work).

Parent/carer consultations for Yrs 7 & 8 will take place on 6th April and Yrs 9 & 10 on 8th April; appointments will be arranged as usual. I will of course be available and look forward to welcoming you.

Finally two reminders, the swimming gala will take place next Thursday, please see the accompanying letter for details. Lastly, the PTA has arranged a school disco on 24th April. Tickets are available until next Wednesday from the school office priced at £1.50. We hope that you are able to come along and enjoy this event whilst supporting our PTA.

Happy weekend,

Farah
Head teacher

Foundation Stage went to visit the Dentist!

Last week we visited the Dental Surgery. We have been learning about people who help us and we know that Mr Rob looks after our teeth. We had a fantastic visit and had lots of fun too!

Thank you from the Foundation Stage.

We met Doogie the dog and Mr Rob showed us how we need to brush our teeth to keep them clean and healthy.

We played a game by sorting out the good food and the bad food for our teeth.

And then we had a ride on the magical chair!

'Year 3 and 4 have been testing the properties of rocks in science this week. Our team of brainy boffins successfully tested for hardness, permeability, and the presence of carbonates.'
