

EYFS have been busy learning about their senses.

The Nursery children went on a 'looking walk' to see what they could see through their coloured telescopes. They saw Miss Collard and her class coming back from their walk.

Kenzie and Lincoln saw the mynah in the tree. Amber is looking for her Mummy.

The Reception children focused on mixing colours to 'see' what new colour they could make. We used the colour mixing glasses to experiment.

Kenzo mixed red and blue lens. "That makes purple."

Harper mixed yellow and red lens. "That makes orange."

Dougie mixed yellow and blue lens. "That makes green."

We also made shakers using different media to listen to what sounds they make. Amber used clinker in her shaker and then we used them to dance around the setting.

Here are the Reception girls with their good listening ears...we're making very good use of them.
