

In Literacy we have been learning all about Space. This week we created a class fact book all about space. Did you know that you have to speak Russian to be an astronaut? We also found out answers to questions we were curious about, e.g. *how do you go to the toilet in space? Have any animals been space?* Ask the children to find out the answers!

At the end of the week we had our very own rocket launch.... 3...2...1...BLAST OFF.

In Maths we have been learning all about different capacities. Year 1 were using containers to show me different amounts and Year 2 made a delicious Space Soup by measuring accurately.

This week we have been looking at multiples and multiplication. Year 1 were doubling and halving in pairs using yummy sweets and Year 2 were solving multiples of 2, 3, 5 and 10 problems! Good job guys!

In Art we have started an Earth topic with Mrs Yon. Look at our amazing rock paintings! Can you guess what animals we have painted?

In Science we went on a plant hunt around the school. We thought about why plants were green and why some were brown. Next lesson we look at different types of potatoes and how they grow. We had no idea you could grow potatoes at home so easily! Fingers crossed we will be able to visit the Hydroponics to see how we grow things Ascension Island.
