Hello Everyone,

We have had a full and busy week here at TBS.

The students have been hard at work as usual and I have had a minute or two to pop in and see the Primary school in action.

Our Nursery students were enjoying their outdoor learning with Ms Glynis whilst the reception students were busy inside doing Maths, finding shapes within shapes with Mrs Roberts.

The Year 1 and 2 students took me to visit their tomato plants which have been planted out into the ground and are growing nicely. They are all super keen and hoping for some tomatoes soon. Thank You Mr Arnold for all your help!

Year 3 & 4 were caught doing a spot of DT with Mr D in the Secondary school. They had previously made sweet/chocolate boxes using nets and were getting ready to decorate them.

I didn't get to Year 5 (sorry guys) but Year 6 was working very hard with Miss Crowie in Maths in preparation for their SAT's exams which are coming up soon.

In the Secondary sector, our IGCSE exams are almost complete with only 4 more left to go. Year 11 students have their Leavers Assembly and Prom coming up and will then be looking forward to their Youth training placements. Year 10 students are currently writing letters to employers for their Work experience placements which will take place at the end of July.

It is Year 9's turn for the newsletter this week so I will leave it to them to tell you what they have been up to.

The House point cup this week was once again awarded to Cronks! Well done Cronks, that's three weeks in a row.

## Reminders

Please don't forget to send in your permission slips for Explorers club and to register interest for your child/ren to take part in the Summer school.

We have at school two hoodies that have been left lying around: one is 3-4 yrs and one is 5-6 yrs. If these belong to your child please let Tash know.

That's it for this week! Enjoy the long weekend.

Tania Maggott

Head Teacher

Top students:

(Top Left)-Primary: Theo Plato- Francis

(Top Right) -Secondary: Zayla Henry

Great job all!

## Hello from Year 9

We've been choosing our GCSE options for next year. This is a very big decision. We have to take Science, English, Maths and ICT as our core subjects, then pick 3 others. Some of us know what we want to do and some are still deciding. Whatever we pick, we know we will have to work hard for the next two years! Here we are in some of our favourite subjects.

I like doing DT because it is fun and we are making candle holders. I have chosen DT for one of my options. It will be useful to me because I want to be a carpenter. I am looking forward to DT in year 10 because we get to design and make our own project, something that we want to make.

Lucas

I'm looking forward to art in year 10 and ICT, although it is a core subject, because in the future I'd like to be an IT technician.

Wyatt

Recently I have enjoyed playing softball at the Base in PE and we have had options evening and have been given some ideas about our future. I have no idea what I want to do! I might choose Marine Science as one of my options. I'm looking forward to only studying the subjects I choose, and I think marine science is important because it looks at the world from a different angle.

Rhiann

I'm thinking about taking DT, Art and Business Studies for my options but I haven't decided yet! I think that DT is important because it teaches you how to be practical and makes you more independent so you can do things for yourself.

The options I have chosen for my GCSEs are Art, HE and Marine Science. I knew straight away what I wanted to do. I'm really looking forward to art in year 10 - I think art is important because it can help you to express how you feel without words and be yourself.

Jordan

Recently in ICT we have been doing vector graphics and made monochrome animals. I think ICT is important because you learn about different software which you might use in jobs. I'm thinking about taking DT, HE and either Travel and Tourism or Geography.

Zayla

I like doing DT because we are making candle holders. For my options I'm thinking about DT, HE and Travel and Tourism. I think DT is important because it will help me to get the job I want in the future. I want to do carpentry.

Jaylen
