

Two Boats School

Newsletter

Friday 22nd March 2024

Hello Everyone,

Thank you to the Parents of Years 7 and 10 who attended the Parent Consultations on Tuesday, as always it was great to see you all. These meetings are an important part of the students Educational journey and it is vital that we work together to ensure that all students get the best from their time here at TBS.

The Resilience Study conducted by Dr Tara Murphy at Nottingham University concluded on Thursday this week. The information from this will now be worked on by Dr Tara and she will share her findings with the school. After being approved the findings will be shared with parents. Thank you to the Year 9 and 10 students who took part in this study and to Paul Bridgewater for your support with the study.

A reminder that school will close on **Friday 29th March** and **Monday 1st April** for Easter, School will then resume on **Tuesday 2nd April** and close after the Swim Gala on **Friday 12th April**. Term 3 will then start for students on **Thursday 25th April**.

House Points:

Cronks retained the weekly house point cup this week with 175 point. Well done to all in Cronks!

Star of the Week - for Primary was awarded to Ziontai Lawrence and in Secondary there were two stars, Lucas Thomas and Liana Brogdon Sim. Congratulations to all three students!

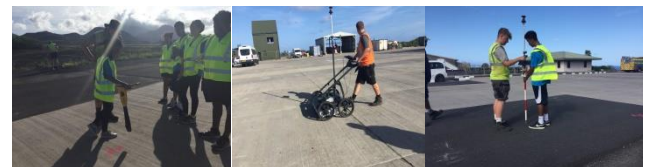

That's it for this week

Tania Maggott
Head Teacher

Structural Engineer Max Marshall Visits TBS:

Max Marshall of Mc Andrew Martin Ltd who has been here for a short while as a sub-contractor with Mitie visited TBS to talk to the Year 11 students about applications of structural engineering. The first two session's students were taught about different types of bridges and the forces involved. In groups the students then had a go at building and testing bridges using the knowledge they had gained. All three teams built great bridges. Well done to the winning team, Liana, Tarell and Ike, we learnt that aesthetically appealing doesn't mean it will always be the strongest. The group also went on a visit to the Airhead where Max and the team showed us different ways of surveying for the land surface and underground for utilities. Some of the team also told the students about their different career paths. It was interesting to see the machines at work and the technology involved. Max then came back to school to do a Careers talk to the group. Thank you Max!

Year 7 and 8

Hello everyone!

We have been thinking about our school value of Teamwork this week. Here are some of our thoughts.

I show teamwork because I treat everyone with respect. I don't start arguments and I address conflict.
Dane

I think everyone's opinion should be heard!
Aisja

No matter how awesome or experienced you are, we all need help sometimes.
Riley

We worked as a team in our French lessons to create a fashion show. We walked the catwalk and described what other people were wearing in French. C'était magnifique!

Even if you don't agree, value their ideas and opinions. If you encounter bullying tell someone and care for others.
Savannah

When we are in class or hanging out with each other we are all doing teamwork.
Bella

Roses are red
Violets are blue
There's no teamwork without me and you! – Matteu

Teamwork
is the key
to life. - Mitchell
