

Hello Everyone,

This week has been a busy one for our Year 11 students as they are in the middle of their mock exams. These exams will help them prepare for their forthcoming real exams in June 2025.

On Monday 11th November Mr Paul Watkins our Year 3/4 teacher will arrive. We all look forward to welcoming Mr Watkins to school. You will hear more from Mr Watkins at a later date.

Thank you to Caleb from the US Base Hydroponics who came in to support with Year 3 & 4 Science topic 'How plants Grow'. The students enjoyed the session and were full of questions for Caleb. We hope to see you back soon.

Thank you to Hayley for coming in and administering the Flu nasal spray and vaccines for both staff and students. As always it is lovely to have you here Hayley! For any students who were off ill during this visit please

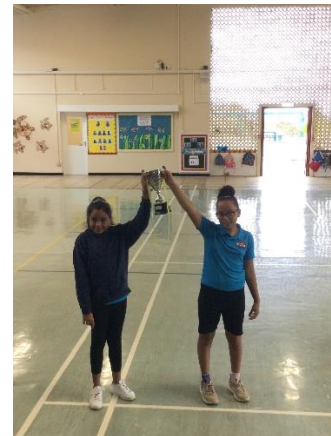

contact Hayley at the hospital to arrange for your child to have the spray/job before 6th December.

In our assembly today we said bye to one of our Nursery students Theo Clingham. All of us here at TBS wishes Theo the very best.

House Points

The house cup this week was won by Elliots with 61 points. Well done to Elliots.

Stars of the week this week are Tanzi Beard in Primary and Isabella Alexander in Secondary. Great job girls!

Also this week students received certificates for star of the term 1a and Gold, Silver, Bronze awards for most house points in each house for the term. Congratulations to all students receiving awards.

Next week TBS will take part in Antibullying Week, a letter has been sent home with the timetable of activities, so please check with your child if you haven't already seen this letter.

Speaker Bear

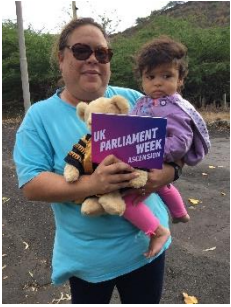

Speaker Bear has had a fantastic time so far. He has met some of the staff and students at the school and has been out and about getting to know Ascension and its people. More photos to follow as he continues his journey. [#UKPW#SpeakerBear](#)

That's it for this week!

Tania Maggott
Head Teacher

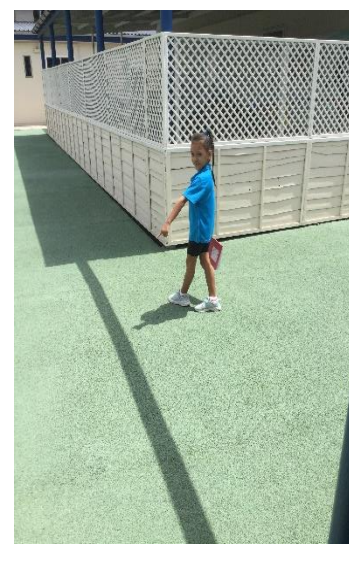

Speaker Bear's Journey So Far

HELLO FROM YEAR 3/4!

Last half term, Year 3 and 4 were focusing on the topic Light and shadows. They participated in some really fun practical lessons in Science especially the one of making and drawing their partners shadow. Furthermore, they also learnt about the different light sources and if they are natural or man-made.

Year 3/4 really enjoyed this topic and were very enthusiastic to start the next topic of 'How do plants grow'

Poetry Stars!

In Literacy, all students were looking at different forms of Poetry and to create a cross-curriculum link we focused on Light Sources as our stimulus and the students came up with some brilliant poems about the different light sources using similes, metaphors and personification. Here are some of the Poems that students came up with.

The stars shine brightly, like diamonds in the sky, sprinting swiftly like a bird through the sky.

The next day, I woke up, the sun was like a big yellow eye staring at me, shining gracefully over the earth.

The excited fire burned happily like a man breathing heavily after a long walk.

The shiny star was sprinting like a cheetah across the sky.

The big sun was wild like a dog chasing the moon.

The hot fire zoomed like a rabbit through the trees.

The glittery candle fiercely like a firework in the dark.

The yellow torch shone on the story book like the moon shining on the ocean.

The glistening star danced beautifully like a hyena.

The bright sun was creeping over the earth like a snail.

The boiling hot fire skipped like a bunny in the air.

The warm bulb hangs low like a bat sleeping.

The blinding sun invaded Ascension like the Anglo-Saxons invaded Britain.

The dazzling stars covered my house beautifully like a blanket.

The boiling hot fire burned down the wooden house like a forest fire.

The flaming candle crackled down the wooden hut like sizzling pork in a pan.

The fantastic shiny torch lit up the dark house like the sun does at golden hour.
