

Hello Everyone,

This week at TBS was wellbeing week! Students have been involved in a number of activities each day and on Friday morning in our assembly Mr Duncan and Mrs O'Dean shared some self-help tips for ensuring we look after ourselves to keep well. Thank you to Mrs Giles for organising and coordinating the week.

The weeks left in this term will be very busy with the end of the school year tasks and activities. Next week is our Cycle 3 Lesson Observations and we look forward to having our school Governors in to support with these. There will also be End of Year tests and assessments for all of our students, followed by our End of Year Awards Assembly on Friday 11th July at 1.30pm.

The last two weeks of the term our Year 10 will engage in Work experience with employing organisations here on the Island. Thank you to all employers and employees who will support our students with this. Your support is greatly appreciated.

Gentle Reminder

Please could we remind parents who haven't yet paid for uniform orders to do this as soon as possible. Additionally a reminder that our school policy states a navy plain hoodie/jumper/cardigan so now might be a good time to source this for the new school year if your child hasn't got one. You can order hoodies through school if you so wish.

On Friday in assembly we gave out certificates to students in each house with the most house points. Some students received our star of the term awards for term 3A as well as our star of the week certificates. Congratulations and well done to all those receiving a certificate.

The weekly house cup was retained by Elliots! Great job Elliots! Congratulations to Tanzi and Dane our stars of week 1 also.

Certificates for the Secondary road race were also presented. Well done to all!

Administrator Visits Year 5 & 6

Year 5 and 6 students have been studying the role of local and national government in the UK as part of their PSHE course. They were very fortunate to have our Administrator HH Simon Minshull come into school to speak to them recently, giving the students the context and nuances that apply to Ascension's law making. He was able to shed light on the governmental structure and how laws from different nations apply on Ascension. Given the upcoming Ascension Island Council elections, it was very pertinent that the Administrator was able to highlight the important work of councillors and their role on the island. We would like to thank the Administrator and his team for giving up his valuable time to speak to the students and generously answering so many of their questions.

Good Luck to all those standing for Election from all at TBS!

Wellbeing Week 2025

As part of our Wellbeing Week we have been up to all sorts of different activities to stay happy and healthy. Here's a little snapshot of our week!

Ms. Smith ran a meditation session for the secondary students on Wednesday lunchtime. A lovely moment mid-week to rest and reset.

Mrs. Giles has been busy in the kitchen offering up tea and toast to our secondary students as part of breakfast club this week.

Our Student Council have been running Story Time at lunch in the library. We have all really enjoyed this and the student council members showed confidence and enjoyed reading out loud to the other students as well.

Primary Students Pajama Party

The primary sector finished our wonderful wellbeing week with a PJ party on Friday. We all got into our pajamas and snuggled up to listen to some soothing music, some stories or watch a movie. We even had popcorn! Everyone enjoyed themselves and had a nice calm end to what has been another busy first week of the term full of wellbeing activities.

Outdoor lessons – from ICT to English, youngest to oldest, we have taken our learning outside this week and made the most of Ascension's (usually) warm and sunny weather.
